FY-75 PERFORMANCE EVALUATION: KIQ-25

KIQ-25: What are the size and composition of the Warsaw Pact and NATO forces in the NATO Guidelines Area (NGA)?

PART I -- EVALUATION OF KIQ ACHIEVEMENT.

A. Overall Performance Evaluation.

Substantial progress was made during the past year toward satisfying this KIQ. Collectors, processors, and producers of intelligence in support of this KIQ have either met or progressed significantly toward meeting the objectives. In addition, there has been considerable current support provided to the MBFR negotiating team using the developing KIQ-25 data bases.

B. Evaluation of Performance with Respect to Collection Objectives and Relative Contribution of Collection Methods.

D. Evaluation of Performance with Respect to Production Objectives.

CIA and DIA have created a data base of manpower and equipment strengths which is already being used in support of MBFR negotiations. In addition they have both participated in the development of an automated Soviet Warsaw Pact air and ground order of battle file, maintained in DIA, which contains community judgments of equipment and personnel strengths of units to the regimental level of detail. Numerous reports have been developed in direct support of the US MBFR delegation. In addition, CIA and DIA produced under the aegis of the NIO for Conventional Forces an interagency memorandum establishing official US estimated personnel strengths of Warsaw Pact ground forces in the NATO Guidelines Area. CIA with DIA participation produced a coordinated assessment of Warsaw Pact nuclear force levels.

PART II -- EVALUATION OF AGENCY COMMITMENTS.

C. Production Programs.

1. CIA has provided direct support to the MBFR negotiating team in coordination with DIA. In addition, they, with DIA, were the contributors to the Interagency Intelligence Memorandum: Estimated Manpower of Warsaw Pact Forces in the NATO Guidelines Area.

2. DIA has provided direct support to the MBFR negotiating team in coordination with CIA. In addition, they, with CIA, were the contributors to the Interagency Intelligence Memorandum: Estimated Manpower of Warsaw Pact Forces in the NATO Guidelines Area. Input from the new DIA branch in support of production for this KIQ was evident in the production of the coordinated CIA/DIA assessment of nuclear force levels. DIA automated files on NATO forces in the NATO guidelines area met the requirements of this KIQ.

3. NSA made improvements in the reporting of information relevant to this KIQ.

4. In addition to the above, CIA and DIA contributed to the Department of Defense NATO Fact Book which is used in support of the MBFR negotiations.
